FOR IMMEDIATE RELEASE

### **D'Vontz Helps Customers Design Vanities Online**

June 16, 2008 - D'Vontz, a Tulsa, OK-based manufacturer and distributor of kitchen and bath products, has announced its new MDV Package Designer Software program available at [DVontz.com](http://DVontz.com). The program allows customers to design a vanity online and print the specifications to order at wholesale and retail showrooms that carry D'Vontz products.

"We wanted to make it as easy as possible for our customers to find the perfect product for their bathroom or powder room," said John Kellerstrass, VP of D'Vontz. "Our exclusively designed product lines are hand-crafted with the finest materials and our vanity cabinets are made in the United States, giving our customers so many quality options for their home design. With MDV Package Designer, they can create the vanity of their dreams in the comfort of their own home."

The MDV Package Designer walks the customer through a few simple steps, calculating the price and offering helpful tips along the way. The first step of the process is selecting the vanity's size, as well as deciding to build a freestanding unit or a wall-to-wall unit. This step also includes choosing a cabinet finish. Step two helps the customer select and arrange the cabinets according to the size of the vanity. The following optional steps allow the customer to add sinks, countertops and plumbing fixtures, choosing materials, configurations and finishes for each component. For those unfamiliar with the parts of a vanity or the site's terminology, a helpful chart is just a click away. The numbered diagram shows the customer what each piece is and where it goes, including the stretcher, linen cabinet, base cabinet, stone slab, stone sink and faucet, and medicine cabinet. When the customer is finished with their design, they can simply print it out and take it to a showroom, where they can order the vanity they created at home.

D'Vontz manufactures an extensive line of award-winning products for the bath, powder room and kitchen. Exclusively designed with the finest natural and select sustainable materials, the company's comprehensive offering of fashion plumbing products includes Lautus marble stone sinks, distinctive cabinets manufactured in the United States, timeless copper basins and stylish iron pedestals. D'Vontz is a member of the National Kitchen & Bath Association (NKBA), an organization devoted to enhancing the success and excellence of its members, promoting professionalism and ethical business practices, and providing leadership and direction for the kitchen and bath industry worldwide. More information about D'Vontz and its products can be found online at [www.dvontz.com](http://www.dvontz.com) or by calling 918-622-3600.
